**Abstract.** In this paper we give some applications to integral equations as well as homotopy theory via Suzuki type fixed point theorems in partially ordered complete  $S_b$  - metric space by using generalized contractive conditions. We also furnish an example which supports our main result.

*AMS Mathematics Subject Classification* (2010): 54H25; 47H10; 54E50

*Key words and phrases:*  $S_b$ -metric space;  $S_b$ -Cauchy sequence;  $S_b$  - completeness; fixed point; Suzuki type contraction
